

How to read serial numbers for machines manufactured after January 1, 1993.

On January 1, 1993, all U.S. manufactured products with serial numbers were assigned a NEW serial number format. The new format identifies the country of manufacture, the manufacturing facility in the designated country of manufacture, the year of manufacture and the month of manufacture.

## ***Determining Manufacturing Date From Serial Number***

Country Codes:

U = United States

C = Canada

M = Mexico

P = Poland

I = Italy

Z = China

A = Australia
